Manager Commentary

Very strong rally witnessed by the Qatari markets as it continues the positive momentum witnessed in 2018. That QE Index rose a staggering 5% solidifying its position as the best performing market in the GCC and the second highest returning market in the world in USD terms returning 20.8% albeit on low volumes.

Driven mainly by the Financial Sector which witnessed a strong rally on the back of upbeat 3rd quarter results, QIIB rallied by 9.4% while QIB rose 8.2%. The Real Estate Sector was mainly driven by Barwa Real Estate climbing 6.8%.

QGF Q and QGF N returned 3.0% and 3.1% respectively compared to the Index 5.0%. The Fund was conservatively positioned during the month to mitigate downside risk caused by low volatility.

Earnings season kicked off with Masraf Al Rayan reporting a net profit growth of 4.5% YoY for the 9 months period. Vodafone reported revenues growth of 5% YoY, driven by growth in post-paid subscribers, corporate internet connections and handset sales.

We continue to monitor corporate earnings and allocate accordingly to companies that have outperformed and position the portfolio in sectors where we have high conviction calls.
